Downlight
LEON

LEON is a narrow trim LED downlight for ceilings where a smaller opening works better. The 70mm cutout and slim white trim keep it discreet, while the deep recessed aluminium alloy housing holds the light source back to keep glare down. It suits closely spaced layouts in bedrooms, hallways, hotel rooms and ensuites, and the flex and plug are included for quick installation.

The 12W covers most standard rooms and the 15W adds output for slightly higher ceilings. Four beam angles run from narrow accent to wide ambient, with IP44 protection for bathrooms and covered entries.

Features

- Compact narrow trim with slim white housing for a discreet finish
- Non-dim is standard, with 0-10V, trailing edge and DALI dimming available
- 70mm cutout, suits tight layouts and shallow ceiling cavities
- 12W and 15W options to match room size and light level
- Four beam angles: 15°, 24°, 36° and 55°
- IP44 rated

Applications

- Bedrooms, hallways and smaller living areas
- Hotel rooms and hospitality interiors
- Boutique retail, display shelving and feature walls
- Joinery, entries and passageways
- Bathrooms and ensuites
- Low ceilings and tight ceiling cavities
- Accent lighting for artwork and wall features (15° and 24°)
