HOLLOW

Design — James van Vossel

For designer James van Vossel, it was time to rethink pure, simple forms. That's when the tube came in. Lit or dark, open or closed. Hollow is the luminaire that works with you. Adjustable and versatile. For spaces that welcome intrigue and personality. It's the light companion you were waiting for.

Design that pops

One design, invisible and visible. It can hide, be one with the environment, showing nothing but glowing cavities. It can stick out playfully, casting light in an ocean of space. Hollow is a surprise and won't be revealed until you touch.

Present, not present

Rediscover light with Hollow's marvellous, unusual adjustability. Hollow's smooth rotation system slides open to let you choose a 90°, 60° or 45° angle, or anything else in between. Powerful beam, soft glow, discreet light.

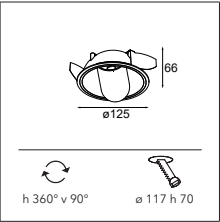

Colours to caress

Experiment with colours and use the cup's inner glow as an additional light source. Gold for a warm, cosy mood maker. White, for a decisive indirect light effect. Black, for a stronger presence, but with softer, indirect light.
