Inspired by the yin-yang symbol, a sinuous 2mm S-shaped line divides Semih in two equal, complementary parts: the hard, solid part mounted to the ceiling and the soft, round lamp housing emitting light. Semih is exceptionally easy to install, thanks to strong mounting magnets. Available in two sizes, Semih is an award-winning luminaire with positive, directed energy.

Flexibility par excellence

Semih's flexibility is an integral part of its design. Closed, it's a sober downlighter with an air of mystery. As the bottom part slowly twists open, it reveals a soft light that flows with movement illuminating the surroundings. Turn it horizontally up to 355°, and tilt it vertically up to 70° on either side.

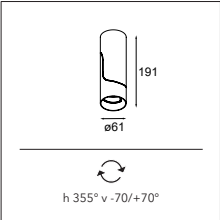

Two sizes, many spaces

Semih comes in two sizes, ø86 and ø61. The original Semih, whose size and performing light were originally designed for multifunctionality in retail and hospitality, offers various types of light accents. Semih 61's application opens itself further to residential settings and small boutiques, where more subtle lighting is suitable. Semih 61 also fits on our 230V track rail system.

Installation made easy

Installing Semih is a breeze, requiring no visible screws. Just mount the ceiling panel to the ceiling and let the powerful magnets do their job. The reflectors are also clicked on a magnetic inner panel, facilitating replacement. What's more, as all the gear is integrated into the fixture, Semih can easily be connected to 230V standard wiring during renovation works.
