DENT

Design — Jeffrey Huyghe

This is the luminaire with a playful personality. Looking one way, and then another. Its design is enigmatic, as is the light it provides. And then there's what can be done with it, and where. Alone on a residential wall, it's minimalistic and beautiful. Together in a large public space, they become an artful lightscape with puzzling lines and angular paths.

A twofold design, one art installation

Dent is an excellent candidate for an art installation that demands minimalist beauty, originality and function. One, two, or even several units of different shapes and colours can be combined in wildly fun patterns and landscapes that enhance the mathematical cleverness and playfulness of the design.

Endless applications, endless play

Dent is an ultra-thin (25mm) wall fixture that fits in a number of residential and hospitality environments. Narrow hallways, large spaces, cozy spaces, walls of any dimension. Our minimalist fixture with an edge is ready to for a game.

Playful modularity for more than light

Dent comes in three sizes. Small is a square, medium and large are rectangular. Create mind-boggling artistic landscapes with this geometrical design. Squares, rectangles, bigger rectangles, lines.

As the name suggests, Dent's body is slightly indented, adding depth to any configuration
