

REKTOR

Design — Couvreur-Devos

With a name derived from the Latin word for “ruler”, the Rektor range of LED lighting has every quality of a leader. Winner of the 2014 Henry Van de Velde design award, Rektor showcases the distinguished effects of right angles and accented light direction.

Hidden ingenuity

The unique feature of Rektor is that all the technical workings are concealed within the fixture.

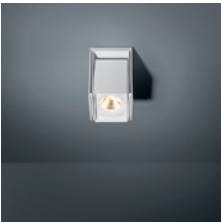

The innovative tilting technology allows you to rotate the LED head 360°, as well as adjust it upwards or downwards up to 90°. All without a single visible wire.

Rektor in many applications

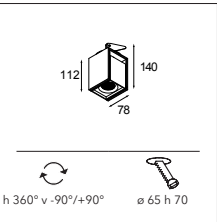

Rektor comes available surface-mounted with a sleek driver box, or recessed, hiding the driver box completely in the ceiling or wall. Rektor’s refined industrial, rectangular design is also an option for our 230V track system, making it an even more attractive and relevant choice for retail and hospitality spaces.
