

BoscoLighting's **MAX High Bay Lights** are a great way to light up warehouses, loading docks, factories, big box retails, gymnasiums, supermarkets, or any other place with high ceilings and a need for consistent and bright light.

Our LED high bays are up to 75% more efficient than traditional metal-halide high bays, last far longer and do not require replacement bulbs. This means that there are great electrical savings along with reduced maintenance costs for your projects.

One of the great benefits of choosing BoscoLighting is that it allows you to select from a wide range of colour temperature options: 2700K, 3000K, 3500K, 4000K, 4500K, 5000K, 5500K, 6000K, 6500K. Not to mention that various dimming options available on request, including 0-10V, trailing edge, DALI and CBUS.

Aluminium reflector must be specified on ordering: 45°, 90°, 120°

*Default reflector: 120°

Features

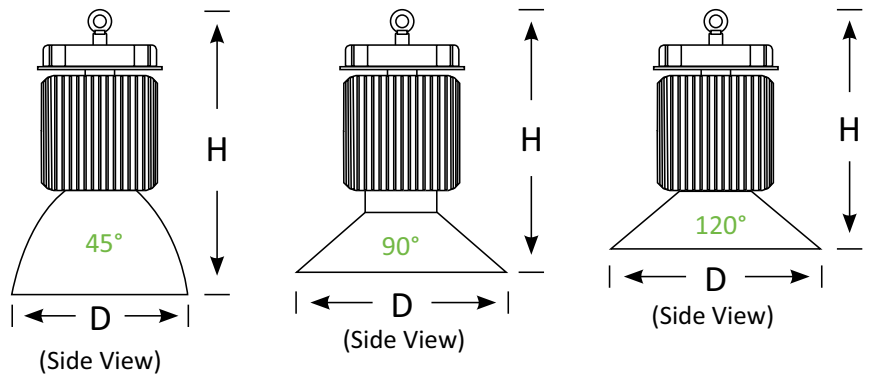

- An IP65 rating ensure that these lights are waterproof and suitable for indoor or outdoor use
- Maintenance free and quality build to protect against vibrations and ensure long lasting life, inbuilt redundancy to ensure extreme long life
- Electrician friendly - Easy to install
