

BoscoLighting's CRUZ High Bay Lights are designed for projects with high ceilings and a need for consistent and bright light. With inbuilt copper heat pipes to efficiently and effectively remove heat from the LED chips, our luminaires run cooler and so last much longer even in areas with poor airflow or extended operation.

Perfect for lighting up warehouses, loading dock, factories, big box retail, gymnasiums, supermarkets.

This versatile light can be suspended to the ceiling, mounted on the wall, seated on the floor or even attached to the pole.

## Features

- An IP65 rating ensure that these lights are waterproof and suitable for indoor or outdoor use
