MULTIPURPOSE FRAME STRUCTURE

FITNESS • TRAINING • STRUCTURES

DIY | DESIGN | MODIFY | EXTEND | ENDLESS CONFIGURATION

FITNESSFRAMES™

An **Australian invention** designed and patented as a multipurpose structure made up of one unique component of different sizes to construct any design. Patented world wide.

Like **MECCANO** and **LEGO**, therefore installation is easy and safe.

All fitness Structures or Rigs on the market today are designed by others and you only get one design. What you see is what you get.

FLEXIBLE, can be altered at any time for different requirement, you design your own Fitness Structure and change it whenever you require to do so to create an ever changing interesting inviting gym.

FITNESSFRAMES™

Features

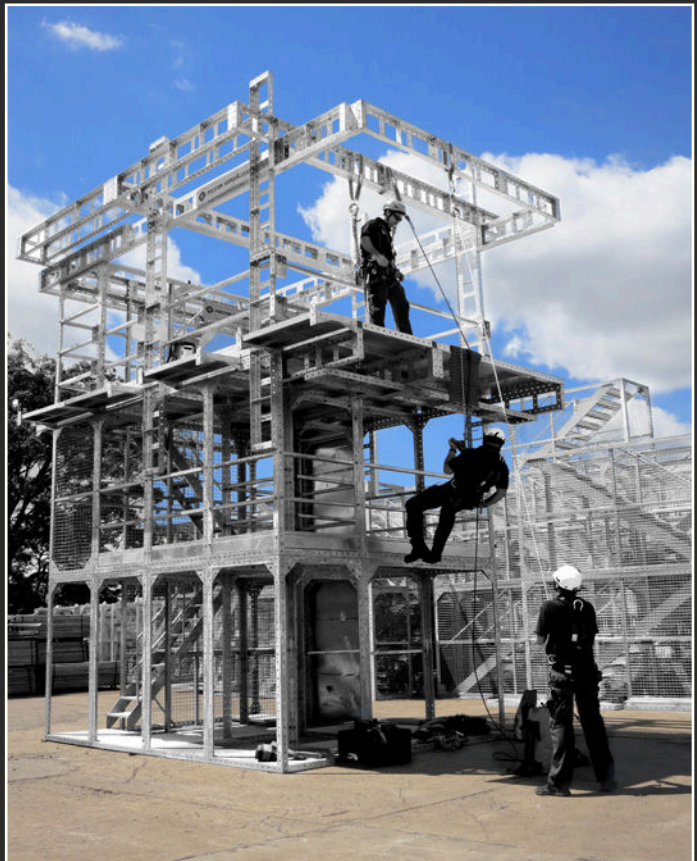

Hot dipped galvanised 75 x 75 x 5 Equal Angle welded frame and plate with 18mm diameter bolt holes at 80mm centers for fixing flexibility.

Can be used as support beams vertically and horizontally and doubled up back to back for added strength. Extremely versatile with many other applications including long length or double beams can be assembled to suit most structural applications including; propping, bracing and columns.

Compatible with other Beams, Boxes, Stair Boxes and accessories. See website - for parts catalogue click on projects tab and click on superAccess product catalogue.

FITNESSFRAMES™ is flexible, can be altered at any time for different requirement, you design your own structure and change it whenever you require to do so.

NO DRAWING | EFFORTLESS | JUST BOLT

ASSEMBLY OF A FITNESSFRAMES™ STRUCTURE IS **EASY** USING THE PRE-DRILLED BEAMS FOR **EASY** CONNECTIONS. ALL COMPONENTS ARE MANUFACTURED WITH HIGH QUALITY CONTROL AND HOT DIPPED GALVANISED STEEL.

100% MODULAR

DIY | DESIGN | MODIFY

ALL FITNESSFRAMES™ CAN BE DISMANTLED AND RE-ASSEMBLED TO ANY DESIGNS INCLUDING A SMALL SUPPORT TOWER OR A HUGE TRAINING TOWER 30m HIGH BY 30m x 30m BASE WITH ALL SORTS OF STAIRS, RAMPS, FITNESS STATION, RESTING PLATFORM, BOOT CAMP STATION, OBSTACLE COURSE, ETC.

FITNESSFRAMES™

COMPONENTS

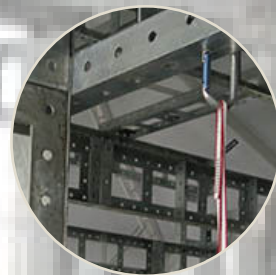

To view all FITNESSFRAMES™ components, visit our website www.prestonaustralia.com and click on PROJECTS tab then click on Product Catalogue.

ASSEMBLE

TOOLS REQUIRED

The most important tool you will use on an installation is a Cordless Ratchet Gun. This will save a lot of time and effort in fastening and removing bolts.

ATTACHMENTS

MAKE IT YOURS

18mm holes using M16 bolts in a grid of 80mm spacing horizontally and vertically, the attachments are easy to install and can be bolted anywhere.

BUILD YOUR OWN **NINJA** COURSE!

IF YOU CAN ASSEMBLE
MECCANO OR LEGO
YOU CAN INSTALL

FITNESSFRAMES™

IT'S THAT SIMPLE.

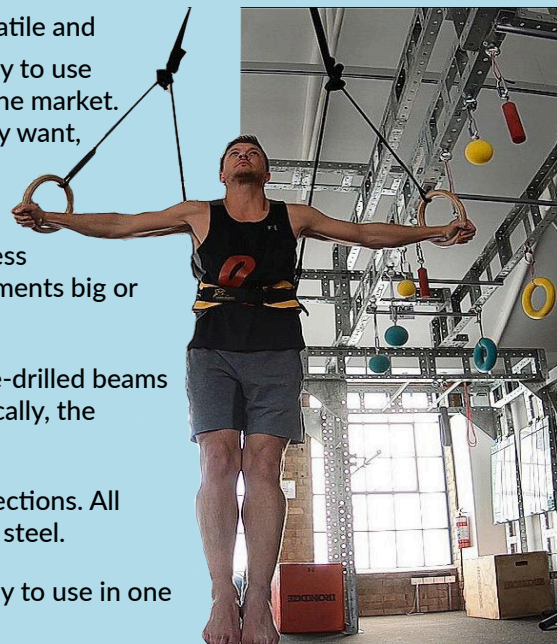

Customise in no time The **FITNESSFRAMES™** is much more versatile and adaptable for gym fit-outs than other modular frame designs by having the flexibility to use different length pieces rather than a standard 2m beam only which is currently on the market. This allows for much greater scope and design for the gym owner to build what they want, how they want, when they want, at anytime, in minutes.

Beams are of different sizes 560mm, 1120mm, 1680mm, 2240mm or 3360mm or can be manufactured to your requirements. The Beams mixed with other superAccess components can construct any fitness structures or framework to suit your requirements big or small.

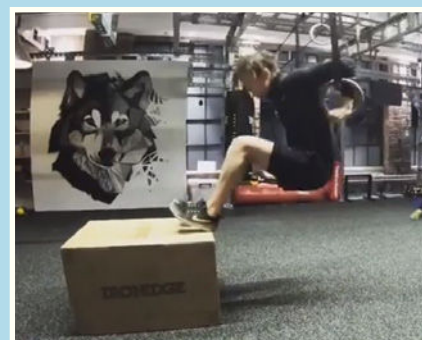

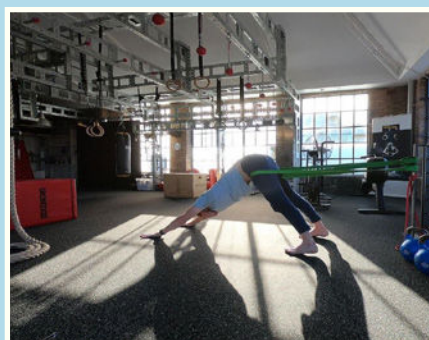

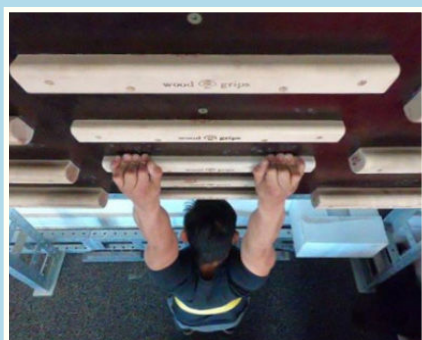

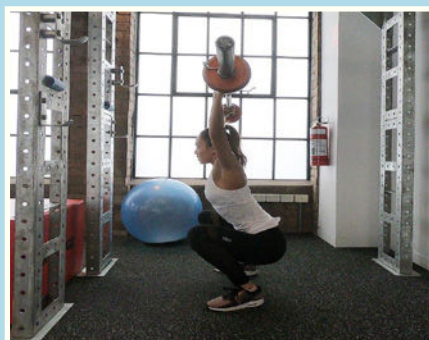

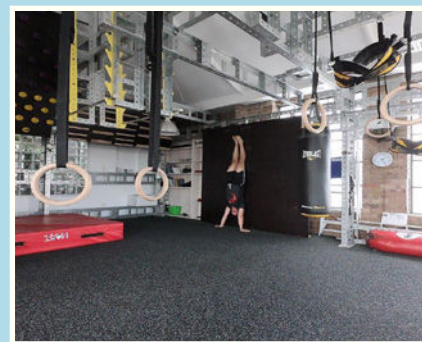

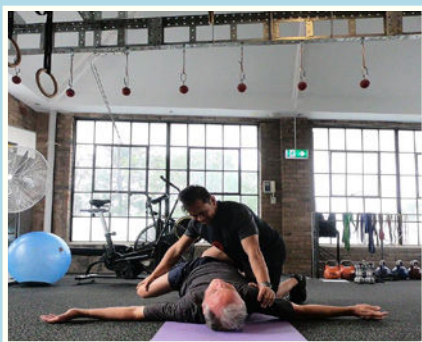

Build your **FITNESSFRAMES™** at any height/width/length or configuration. The pre-drilled beams have 18mm holes using M16 bolts in a grid of 80mm spacing horizontally and vertically, the attachments are easy to install and can be bolted anywhere.

Assembly of a superAccess frame is easy using the pre-drilled Beams for easy connections. All Components are manufactured with high quality control and hot dipped galvanised steel.

Preston can design, supply and install the fitness structure and all components ready to use in one day OR you can do it yourself. It is simple to use. **DESIGN YOUR OWN.**

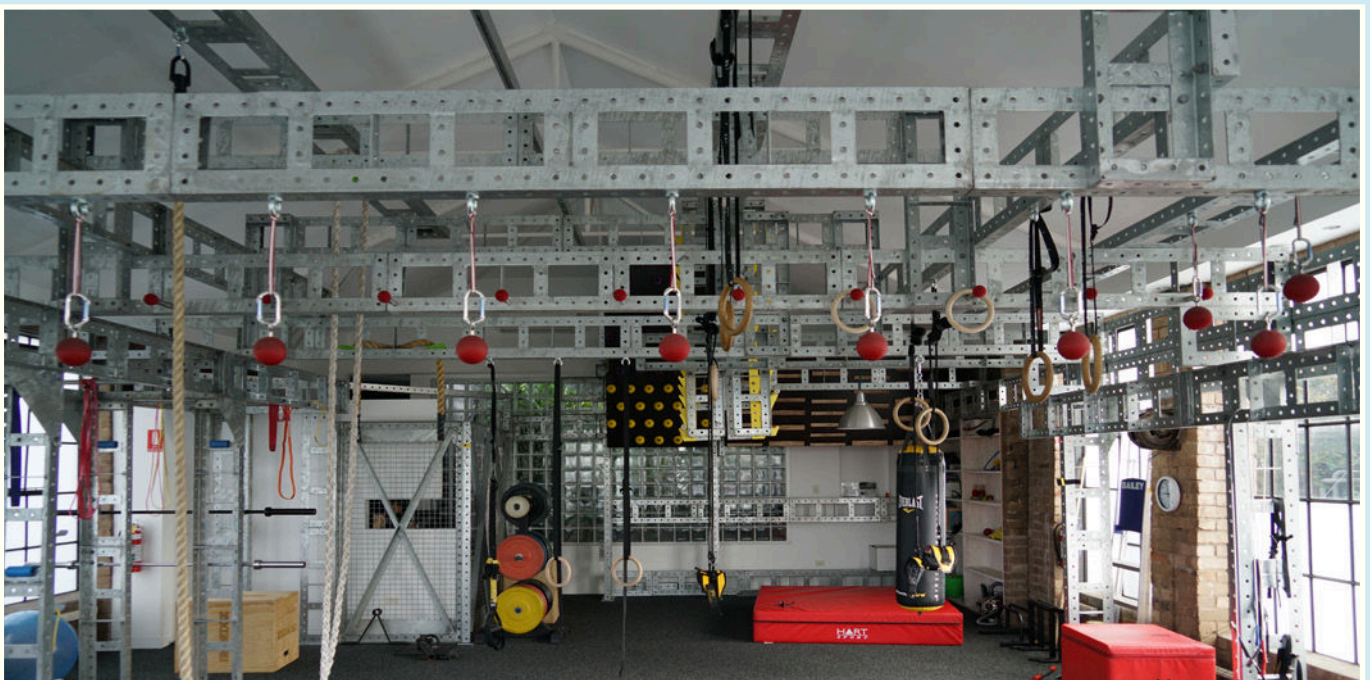

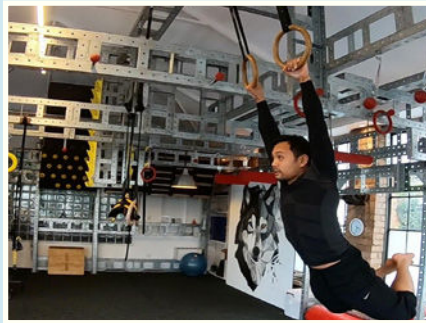

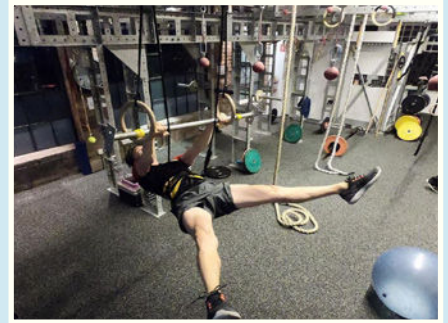

MAXIMISE YOUR SPACE

**NO MATTER HOW COMPLEX OR LARGE YOUR DEMAND IS
WE EITHER HAVE YOUR SOLUTION OR WE WILL DESIGN YOUR SOLUTION.**

YOUR IMAGINATION IS THE ONLY LIMIT FOR THE DESIGNS OR USE OF FITNESSFRAMES™

Rings, Monkey Bars, Parallel Bars, Peg Boards, Ropes, Rock Climbing, Climbing Boards, Salmon Ladders, Boxing Bags, TRX, Stall Bars, Hand Stand Support Panel or any other attachment.

Preston have been moving people forward for over 40 years with quality construction equipment hire and services that many clients have come to count on. We put safety, quality, productivity and cost savings before anything.

As a leader in providing innovative specialised construction equipment for hire and sale, support and services to the Australian and International construction sector for over 40 years, Preston is proud of its history, our people and the reputation for trusted and reliable service that we have become renowned for.

Preston's mission is to provide the highest quality products with the highest safety standards and services to our clients, supported by innovative use of the best in current technology, cost-efficient practices, and safety initiatives. Our pledge is to establish lasting relationships with our clients by exceeding their expectation and gaining their trust through exceptional performance by every member of our team.

Meeting the standard is good. Setting the standard is better.
