

## NOTE SORTER

### GFR-220

The GFR-220 is a trusted note sorter, built to quickly process each banknote by detecting each of its characteristics.

The GFR-200 drastically reduces false discrimination often caused by size detection while ensuring accuracy in authenticating counterfeit or forged banknotes.

### Features

- Enlarged Reject Pocket- as standard for quality non-stop continuous operation.
- Dual operability between two persons- individual is data stored and is ready to be transferred to PC's- (subject to availability of a user interface, as developed by the customer).
- Counting speed- 800 notes/minute.
- Improved feeding mechanism successfully faces and orients banknotes.
- Dust collection via special tray and halls ensures straightforward maintenance.
- IR Sensor for counterfeit detection.
- Rejects barcode tickets with ease.
- Clearance program functionality.
- Ideal for medium to high volume venues.
