

## SELF SERVICE

# H90L

The H90L is an exterior freestanding night safe, which-unlike the H90- can be accessed from the front.

Capable of handling fast, safe and reliable self-service in terms of depositing packaged cash, valuables or important papers, this solution can be used for 24/7 in-branch and off-premise for locations such as train stations, shops, airports and retail locations.

## Features

### ➤ ENHANCED SECURITY

With sensor detection of deposit status and unidentified external threats, the reinforced exterior shutter can close intelligently, so as to avoid misuse and protect the internal mechanism. Anti-fishing, pickproof and rolling interior shutter can minimize the exposure of deposited packages and further detect proper placement. UL291 safe with optional vibration alarm and monitoring system are available.

### ➤ ERGONOMIC DESIGN

Streamline, user-friendly operation interface and frame structure enable front, rear and side service access, improving availability and service efficiency.

### ➤ REVENUE GENERATION

With convenient operation and flexible installation, the H90L can generate revenue from self-service cash or valuables deposit 24/7 in a variety of locations.

## Exclusive SprintQuip Options

### ➤ RAM RAID NEUTRALISER

Patented by SprintQuip, the Ram Raid Neutraliser is a high quality steel plate specially designed to absorb the shock of a ram raid attack, ensuring your machine stays attached to the ground regardless of the direction of the attack, or number of hits received.

### ➤ ELECTRONIC LIFTING FRAME (FIG LIFTER)

The FIG Lifter was designed by Sprintquip to enable the easy removal of deposited items. It alleviates the need to bend over to retrieve bags and deposited items.

#### Dimensions:

Width: 650mm  
Depth: 750mm  
Height: 1750mm

**Weight:** 550Kg
