

COIN PACKAGING

SC9225P

The SC9225P is an ideal coin packaging solution, equipped with two SC3003 coin counters and a 1000 loose coin capacity.

This design allows the device to bag bulk loose coin accurately and with ease. In addition, the SC9225P is now also used on Mini BPS systems to bag sacheted coins.

Features

- Electro-mechanical operation.
- Up to 55 sachets/minute for the single option, 80 sachets/minute for the dual option (20 coins per sachet, 22mm diameter). Machine bagging output speed for loose coin depends on the SC3003s' coin quantity and settings.
- Variable and 7 pre-set sachet lengths, from 80mm to 140mm.
- Typically co-extruded polythene film, 55 Qm.
- Capacity per 8 hours shift: 450,000 coins (single counter) and 100,000,000 (dual counter).
- Specialised mechanics within the unit offer trouble-free control and easy maintenance.
- Modular design for easy component replacement ensures that running costs are kept to a minimum.

Dimensions (in mm): 1190 (H) x 810 (W) x 1150 (D)

Weight: 275Kg

Technical Specifications:

Type of operation: Pnuematic, 5.5 bar

Packing capacity: 1,000 coins of 20 mm diameter: 6 bags/minute

Sachet length: Variable. 7 pre-set bag lengths, from 100 mm to 430 mm
