

CDi COIN DEPOSIT SOLUTION

The CDi is an in-the-wall self-service solution designed to accept large deposits of loose, unsorted coins in exchange for a voucher redeemable in branch or bank account credit (online option).

Banks around the world have deployed coin deposit machines to automate and expedite cash-heavy transactions, reduce wait times for their private and commercial customers and to extend their service availability beyond their business hours.

All paperwork is automated and each transaction recorded in detail, identified by account ID, timestamp and denomination breakdown. With enhanced security features, branches and customers alike can conduct transactions swiftly and effectively, with minimal cash exposure.

BENEFITS

- **OFFER A QUICK AND SMOOTH EXPERIENCE TO YOUR CUSTOMERS**
A deposit transaction only takes a couple of minutes to complete. The count is automated and 99,9% accurate, every time
- **AUTOMATION OF CASH AND ADMIN HEAVY TRANSACTIONS**
With all cash-heavy transaction migrated to the self-service walls, staff can be redirected to customer service and consultative roles
- **CONVENIENT AND SECURE COIN DEPOSIT**
The CDS provides a quick and convenient coin deposit service that minimise cash exposure and handling for both customers and branch staff
- **TRANSACTION COST IS MINIMISED**
With a small footprint, swift operation and minimal maintenance required, the CDS solution allows to significantly reduce your operational costs

also available as

PROCESS

- 1. VERIFICATION** (optional) - The user verifies their account by inserting a valid account card in the card reader
- 2. DEPOSIT** - The user places the coins on the conveyor, making sure no foreign objects are fed into the processing mechanism, then initiates count
- 3. COUNT** - The machine counts the deposit, rejecting any damaged or foreign coins. At the end of the operation, the CDi will prompt the user to continue the deposit or confirm the transaction is completed
- 4. ACKNOWLEDGEMENT** - The machine will provide a unique receipt recording account ID, timestamp and amounts deposited by denomination.
